

Upright Pharmacy Refrigerator 2 to 8?

Description

Upright Pharmacy Refrigerator 2 to 8? UPR-1406 with transparent door design for easy observation with temperature range 2 to 8?, and forced air refrigeration system with air cooler chiller distribution delivers cold air to different levels within each side of the storage chamber, ensuring consistent cabinet wide cooling with adjustable shelves are adjustable to any height and to fulfill different requests. Ergonomic design offers a clear view of stored items over large framed openings. The thin shape allows for cool recovery of your products, without the concern for swinging door clearances. Customers can choose from two types of interior shelving to suit their needs, security and safety lock to avoid unwanted access, provide storage space for easy sorting of a variety of blood products, and casters design and LED interior light.
